Virginia goes out of town quite often and I care for her two dogs (one being a foster pet) and two cats. I visit her home 3x a day for 30 minutes. I provide fresh water, regularly scheduled feedings, lots of love, hugs, and affection, complete house checking, crime deterrence techniques, mail retrieval, set the trash out on pick-up days, document all services provided for each visit so Virginia knows my interactions with the animals, and more.

### Kitty Brokaw

I visit the Brokaw's home once a day, Monday-Friday for 45 minutes to care for their two 9 year old labs. I've been caring for Bonnie & Bailey since mid April, 2008. Bailey is on medication which I administer on a daily basis. During each visit I provide fresh water, treats, play fetch, check the house for any accidents, and provide daily notes.
